	Local News and Updates
Swindon Community Safety Partnership now have Twitter!	Follow them @saferswindon Please follow for event notifications, training opportunities, and also communications regarding some of the key issues that affect our communities; Anti-Social Behaviour, Domestic Abuse, Neighbourhood Crime, Safer Streets Wardens, Radicalisation, Violence against

i 📿	Women and Girls, Serious Violence & Knife Crime, Home Office	
	updates and so much more!	
	A new Community Safety Partnership website will soon be launched,	
	further details to follow in the coming months.	
Safer Street's Wardens	Swindon Borough Council has commissioned via funding received	
	from the Home Office's Safer Streets fund round 4, a team of four	
	Safer Streets Wardens. The team are in place to provide the eyes and	
	ears in the communities of the Swindon Borough to be a visible presence deterring anti-social behaviour and feeling of safety.	
	presence determing anti-social behaviour and reening of safety.	
	The team will work with the Neighbourhood Policing Team's from	
	Wiltshire Police and Swindon Borough Council's Community Safety	
	team to respond, gather intelligence and provide reassurance to the	
	public.	
	The team are will be accredited by Wiltshire Police under the	
	Community Safety Accreditation Scheme (CSAS) which enables them	
	to use minimal policing powers such as requires to provide name and	
	address if involved in anti-social behaviour. They will initially be	
	spending a lot of their time in the Town Centre however have vehicles	
	to respond to other areas in the Borough whereby anti-social	
	behaviour is taking place.

	<ul> <li>is to improve public understanding of ASB while also signposting young people to places they can go to chill out, have fun, learn skills and be themselves.</li> <li>Victims do not know what to do if they are unsatisfied with the handling of their case. The Community Trigger, now called the ASB Case Review, was introduced in the 2014 Anti-Social Behaviour, Crime and Policing Act for victims who have reported ASB but are unhappy with the response or lack thereof.</li> <li>As noted in the 2021/2022 Victim's Commissioner's Annual Report "It empowers a victim to bring agencies together to commit to purposeful action to bring an end to repeat ASB. It can represent the best hope for victims to escape their nightmare. But it remains poorly</li> </ul>
	promoted and underutilised." This is highlighted by further research commissioned by RESOLVE, which shows that 9 years after its introduction, just 6% of people have heard of the ASB Case Review, and only 2% of people fully understand how it works. Further information can be found <u>ASB Awareness Week 2023 - Resolve</u> (resolveuk.org.uk)
Access to legal aid extended to vulnerable	See also ASB webpage on the partnership website <u>Anti-social</u> <u>behaviour - Swindon Safeguarding Partnership</u> The Ministry of Justice has announced that from the 25 <sup>th</sup> May 2023 <u>domestic abuse victims and children will have access to legal aid</u> ,
people	backed by £25 million of government funding. The funding will ensure domestic abuse victims on universal credit and seeking a protective order for themselves or their children against their attackers can access legal aid funding more easily without facing a means test. Those who share a house with their abuser will also benefit from changes to disputed or inaccessible assets – which will no longer be considered when assessing someone's financial eligibility for aid. Legal aid provides support for people who are unable to afford legal representation or need financial help in taking issues to court. Expanding the eligibility criteria helps more people access the justice system to get the support they need. Other measures which will come into force over the next two years
	<ul> <li>include:</li> <li>Free legal representation will be available to anyone under the age of 18, as well as for parents challenging traumatic and difficult medical decisions such as withdrawal of their child's life support</li> <li>Making everyone eligible for legal aid to defend themselves in the Crown Court, ensuring fair trials and ending the so called 'innocence tax' where people were forced to pay for a legal defence even if they were then found not guilty.</li> </ul>

	1
	• Increasing the amount of income someone can receive before having to contribute to legal aid fees by over £3,000 for civil cases and over £12,000 for criminal cases in the magistrates' court

Research of Interest	Published by Stanford University in the USA; Association between Sexual Violence Victimization and Electronic Vaping Product (EVP) Use among Adolescents. <b>Conclusions:</b> Experiencing sexual violence was associated with EVP use. Future studies that employ longitudinal designs may offer more insight into the mechanisms underlying the association between SV victimization and EVP use. In addition, school- based interventions that focus on sexual violence prevention and reducing substance use among adolescents are warranted. Click on this link to access <u>https://pubmed.ncbi.nlm.nih.gov/36803403/</u>
Home Office Updates to the Modern Slavery Statutory Guidance on 18 <sup>th</sup> May 2023.	<ul> <li>Guidance added to chapter 9 on how child victims of modern slavery, supported by local authorities, can transition into Modern Slavery Victim Care Contract (MSVCC) support when they become an adult.</li> <li>Reference to HM Prison and Probation Service and HM Prison Service modern slavery guidance for staff and prisoners was added to Chapter 4.</li> <li>Annex F was updated to: <ul> <li>Clarify that those in emergency pre-Reasonable Grounds accommodation are not eligible to receive the Recovery Rate, until a positive Reasonable Grounds decision is made.</li> <li>Give an overview of the Care Quality Commission (CQC) inspection regime of the MSVCC; and</li> <li>Explain how the MSVCC provides accommodation to eligible victims seeking bail from prison.</li> </ul> </li> </ul>
Blue Light Bulletin - Publication of our	Cognitive impairment is very common in dependent drinkers. Anyone working with dependent drinkers needs to be aware of the impact it can have. Most practitioners, however, will not meet dependent drinkers with a diagnosis of cognitive impairment; they will instead meet dependent drinkers who are confused, impulsive and possibly self-destructive and who they suspect may have a cognitive impairment.

	The problem is that the post stars can be used with Consult of
Guidance on Cognitive Impairment in Dependent Drinkers	The problem is that the next steps can be very difficult. Securing a diagnosis may be a challenge. The dependent drinkers themselves may be hard to engage. Their behaviour may be dismissed as a 'lifestyle choice' or attributed to intoxication rather than brain damage. This situation is the focus of this guidance. Its target audience is the practitioner struggling with an individual who finds it difficult to move forward because of cognitive impairments or the challenging requirements of other services. To access the guidance please click on this link Identifying and addressing cognitive impairment in dependent drinkers. There are also a series of one hour recorded webinars on various aspects of cognitive impairment. These are relevant to anyone who encounters dependent drinkers in their work. The links to access the recordings are below – please click on the hyperlink to open. Alcohol Related Brain Damage by Professor Ken Wilson Using Legal Powers to protect Cognitively Impaired Drinkers by Professor Sir Michael Preston Shoot Understanding Memory, Brain Injury and Neuropsychiatry Services by Dr Rafey Faruqui The Glasgow Model by Grant Brand The Use of Pabrinex Dr Julia Lewis Speech and Language Therapy for Cognitively Impaired Drinkers by Leigh Andrews
