EXPLOITATION SPOT THE SIGNS

- MISSING DAY OR NIGHT**
Missing from home or education. Not knowing where they are or who they are with.
- NEW PLACES**
Discovering they have been going to new places where they have no obvious connections.
- ONLINE USE**
Spending more time online. Secretive activity, reluctant to come offline. Have they distanced themselves from family, friends and usual activities?
- CHANGE IN APPEARANCE**
Clothing, personal hygiene, talking differently, tired.
- INJURIES**
Unexplained bruises, cuts, burns, marks. Reluctance to seek medical attention.
- CHANGE IN BEHAVIOUR**
Have they become unusually secretive, fearful or withdrawn, aggressive, distanced themselves from family and friends, involved in anti-social behaviour.
- COPING MECHANISMS**
Alcohol/drug use/self-harm – what they may be doing or using in order to cope.
- CHANGE IN FRIENDS**
Sudden changes in who they are 'hanging out' with including meeting new people from social media.
- POSSESSIONS**
Unexplained items e.g. New clothing, money, phone, drugs.

All Age Exploitation is a Strategic Priority for Swindon Safeguarding Partnership

- Swindon Safeguarding Partnership are committed to protecting children and adults from all types of exploitation. We recognise there is a lot to do to ensure that we deliver a consistently robust and integrated response to children and adults at risk of exploitation in Swindon.
- This is a fast changing and fluid landscape, however, there is a strong collective commitment to working in partnership to identify exploitation at the earliest opportunity and, where necessary, to ensure that individuals, their families and support networks access the right services at the right time.
- The All Age Exploitation Strategy (PDF) outlines the partnership approach and is aimed at professionals who are working to reduce exploitation in Swindon.
- It is essential that all partners working with children, adults and the wider public understand what exploitation is, how it differs from other forms of abuse, and when and how to respond to concerns.
- Swindon Safeguarding Partnership's ambition is to work collaboratively across Swindon to prevent exploitation. We aim to achieve three overarching strategic outcomes:
 - Children and susceptible adults across the partnership are prevented from becoming victims of exploitation
 - Children and susceptible adults are protected from exploitation
 - Children and susceptible adults are not perpetrators and/or groomed to facilitate exploitation

Over the next slides we have highlighted some useful information to raise awareness and signpost to additional resources.

What is Exploitation?

Exploitation is a form of abuse where someone is forced or coerced into doing things for the benefit of others.

- Exploitation is often a gradual process
- People are groomed and introduced to new ideas, behaviours and activities, making these appear normal and acceptable
- These behaviours and activities may seem exciting or give someone something they are looking for – including money, gifts or a sense of belonging
- People may not recognise that they are being exploited until their situation becomes very serious
- Exploitation can take many forms, can take place in a range of situations, and can involve many groups of people
- Exploitation is a hidden and complex crime which abuses the basic human rights and dignity of victims who are subject to it

Thanks to Detective Inspector Eirin Martin, Wiltshire Police for use of this slide.

What does Exploitation look like?

Exploitation may be taking place even if someone seems to be making their own choices or the activity they are taking part in appears consensual.

Exploitation can....

- Affect any child, young person or adult, regardless of age, ethnicity, nationality, gender identity and sexuality.
- be carried out by individuals or groups.
- involve force, control, coercion and intimidation.
- involve people being forced to take part in the exploitation of others.
- involve people being forced to take part in criminal activity.
- involve control and coercion – this could be psychological or physical.

Thanks to Detective Inspector Eirin Martin, Wiltshire Police for use of this slide.

Grooming

When a person builds a relationship with a child, young person or an adult at risk so they can abuse them and manipulate them into doing things.

Abuse is usually sexual or financial, but it can also include other illegal acts.

This may take place online or in person and can happen over a short or long period of time - from days to years.

Online:

- via social media networks,
- text messages/messaging apps, email,
- text, voice and video chats in forums,
 - games and apps

Groomers are good at lying about who they are, particularly online where they can create a false identity and pretend to be younger than they are.

In person: a groomer can be a stranger or someone the already known or trusted, for example through a friend or family, or at a club they go to.

Coercive and Controlling Behaviour

- Coercive control may start through grooming.
- Predators may target children, or adults, families, friends, professionals. They may initially provide support and assistance as part of the grooming process to win trust.
- Coercive and Controlling Behaviour describes a pattern of behaviour which seeks to take away the victims sense of liberty or freedom.
- This is designed to make a person dependent by isolating them from support, exploiting them, depriving them of independence and regulating their everyday behaviour.

Child Financial Exploitation is a form of Child Criminal Exploitation

Financial exploitation can happen to any child, from any background. It takes many forms, including exploitation within families and care placements as well as outside the home.

A growing concern across the country involves criminals approaching children and young people online through gaming and social media platforms, and in places like shops and cashpoints with offers of quick cash and fake job opportunities, only to use and control their bank accounts to commit fraud and launder money from organised crime.

Spot the signs of Radicalisation

- ✓ Radicalisation can happen both in person or online.
- ✓ Everyone is different, and there is no checklist that can tell us if someone is being radicalised or becoming involved in terrorism. But these signs may mean someone is being radicalised:
- ✓ accessing extremist content online or downloading propaganda material
- ✓ justifying the use of violence to solve societal issues
- ✓ altering their style of dress or appearance to accord with an extremist group
- ✓ being unwilling to engage with people who they see as different
- ✓ using certain symbols associated with terrorist organisations

For advice:

- ✓ talking to friends and family [ACT Early website](#)
- ✓ Working in schools [Educate Against Hate website](#)

How might I identify vulnerability to/signs of Radicalisation?

Key Points:

- There isn't a single profile of radicalisation.
- It is unlikely to be just one factor but a combination, understanding context is part of the Channel process in assessing level of risk.
- Radicalisation can occur regardless of age, gender, lifestyle, beliefs or religion.

Possession of extreme materials or symbols e.g. swastikas	'Them' and 'Us' thinking
Change in language to include racist, offensive words	Isolation from family / friendship group
Talking about / planning violent action	Watching, sharing, or creating films online linked to religious, political, or racial hate
Feelings of grievance or injustice	Being at a transitional time of life or personal crisis
Need for identity, status or a sense of belonging	Family or friends holding or being involved with extremist ideas
Desire for political, social or moral change	Being influenced or controlled by a group

Learning From Reviews

Exploitation has been a theme in reviews for both children and adults.
You can access the review reports and learning leaflets via the links below:

Children: [Local Child Safeguarding Practice Reviews and Case Learning leaflets - Swindon Safeguarding Partnership](#)

Adults: [Safeguarding Adult Reviews \(SAR's\) - Swindon Safeguarding Partnership](#)

Learning from Rapid Reviews

- Exploitation was a factor in 3 Rapid Reviews in 2023 & 2024
- Positive and consistent relationships with professionals was important to young people
- Recognising the impact of exploitation on a young person's mental health & how this might fluctuate
- More curiosity around injury presentation
- Multi-agency information sharing/meetings should be more robust/frequent when risk of harm is escalating
- Use of language/adultification/personal bias
- More timely referrals to the National Referral Mechanism

Child Safeguarding Practice Review Panel

Child Safeguarding Practice Review Panel in 2020 published 'It was hard to escape' focusing on safeguarding children at risk from criminal exploitation.

The themes highlighted are equally applicable to all forms of exploitation of children and adults. Some key themes included:

- Building trusted relationships to bring open and honest conversations
- Critical moments - capacity and responsiveness to respond at critical moments.
- Helping parents/carers and extended families to manage risk
- Acknowledging & managing risk
- Disrupting perpetrators
- National Referral Mechanism – misunderstood and not consistently used

Supporting children at risk of, or experiencing, harm outside the home

Working Together to Safeguard Children 2023 section 194 states...

Some children experience abuse and exploitation outside the home. This is often referred to as “extra-familial harm”. Harm can occur in a range of extra-familial contexts, including school and other educational settings, peer groups, or within community/public spaces, and/or online. Children may experience this type of harm from other children and/or from adults. Forms of extra-familial harm include exploitation by criminal and organised crime groups and individuals (such as county lines and financial exploitation), serious violence, modern slavery and trafficking, online harm, sexual exploitation, teenage relationship abuse, and the influences of extremism which could lead to radicalisation.

Children of all ages can experience extra-familial harm.

Safeguarding Adults

Section 42 Care Act 2014 - Enquiry by local authority

(1) This section applies where a local authority has reasonable cause to suspect that an adult in its area (whether or not ordinarily resident there)—

(a) has needs for care and support (whether or not the authority is meeting any of those needs),

(b) is experiencing, or is at risk of, abuse or neglect, and

(c) as a result of those needs is unable to protect himself or herself against the abuse or neglect or the risk of it.

If you have concerns – Child/Young Person

Children and Families Contact Swindon is the way to contact Swindon Borough Council's children's social care team which provides a single point of contact to request help and support for families or report safeguarding concerns for a child.

Adult Exploitation Screening Tool & Guidance

Swindon Safeguarding Partnership Adult Exploitation Screening Tool

Definition of Exploitation

The Home Office 2018 defines exploitation as:
An individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child, young person or adult and exploits them:

- a) *Through violence or the threat of violence, and/or*
- b) *For financial or other advantage of the perpetrator or facilitator and/or*
- c) *In exchange for something the victim needs or wants*
- d) *Can also occur through use of technology*

Swindon Safeguarding Partnership recognises that exploitation is deliberate maltreatment and manipulation irrespective of their age, gender, ethnicity, background or ability and sexuality and comes in many forms including:

- Modern Slavery
- Human Trafficking
- Sexual Exploitation
- Criminal Exploitation

Purpose of the tool

This screening tool is designed to support staff to determine whether an adult is potentially being exploited or groomed for exploitation. It should be completed when you have concerns that there is a risk of exploitation, or you have spotted some signs of exploitation. Where possible, the screening tool should be completed in partnership with the individual it concerns & where appropriate their carer's.

This screening tool provides some examples of indicators you may see if someone is being exploited. You may not see all of them or any of them, but should still record your professional judgement if you suspect grooming and or exploitation. **There is further guidance that should be read before completing this tool.**

- The guidance gives a clear description of risk and indicators.
 - It gives advice on Dos and Don'ts
 - Examples of what to look out for and note
 - The tool helps to identify and give a common language and screening to identify adults exploitation

Use of Language

- The way we use language influences our thinking. Reviews in other areas have highlighted this as a significant issue which contributed to systemic failure to protect.
- Any language implying that a child/adult are complicit in or responsible for the harm they experience, negatively influences the lens by which we assess their needs and offer support.
- Victim blaming language may reinforce messages from perpetrators around shame and guilt. This in turn may prevent the person from disclosing their abuse as they may feel fear of being blamed by professionals.
- If we use inappropriate language what the adult and other professionals may hear is that they are in some way responsible for what is happening to them and therefore less deserving of our support.
- Adultification bias happens when preconceptions held about children, lead to them being treated and perceived as being more 'adult-like' (Goff et al, 2014, Davis, J. and Marsh, N., 2020). Further information can be found in the SSP briefing relating to [Child Q - safeguarding practice review - Swindon Safeguarding Partnership](#)
- [Adultification - September 2024 - Swindon Safeguarding Partnership](#)

Use of Language – Resources to find out more

Victim blaming is any language or action that implies, intentionally or unintentionally, that a person is partially or wholly responsible for abuse they experience.

The CSE Taskforce commissioned the Children's Society and National Association for People Abused in Childhood (NAPAC) to produce a guide and support materials.

National Referral Mechanism

- The National Referral Mechanism (NRM) is a framework for identifying and referring potential victims of modern slavery and ensuring they receive the appropriate support.
- **Children:** If the potential victim is under 18, or may be under 18, an NRM referral must be made. Child victims do not have to consent to be referred into the NRM and must first be safeguarded and then referred into the NRM process.
- **Adults:** Consent is required for an adult to be referred to the NRM. This is informed consent and you must explain: what the NRM is, what support is available through it, what the possible outcomes are for an individual being referred

April 2024

CrimeStoppers.

**Help protect
your community**

We are an independent charity that gives people the power to speak up and stop crime, 100% anonymously.

People with concerns and information about crime and illegal activity contact our team, we take information about the crime, strip it of any identifiable information about the person providing it, and pass it on to the relevant authorities to take appropriate action.

Our service is available on the phone (0800 555 111) and online ([crimestoppers-uk.org](https://www.crimestoppers-uk.org)), 24/7, 365 days a year. We also share advice on how to protect the people you care about from crime.

We have a youth service called Fearless which provides an anonymous reporting option for young people, but also educates them on crime and the signs to look out for. We have free resources for professionals working with young people at www.fearless.org.

Resources covering various types of exploitation are available for partners to use, helping spread awareness of our anonymous reporting service.

In this pack, there are resources on:

- County Lines
- Human Slavery
- Courier Fraud
- Illegal Money Lending
- Romance Fraud
- Child Financial Exploitation
- Organised Crime Gangs

We want to inform a wide range of audiences about the harms these issues bring to communities, encouraging people to report any information they may have, knowing that they will stay 100% anonymous.

Criminals use violence, exploitation, and intimidation to control people, and profit from the sale of drugs and other illegal activities.

Crimestoppers is encouraging people to speak up and not remain silent when criminals are known to them.

Individuals in the community can pass on what they know (however small or insignificant they may think the information is), it allows the authorities to build a fuller picture with the intelligence received.

Any piece of information could help prevent genuine harm and injury.

Some of the resources use our Fearless brand which is specifically for young people aged 11-17 years.

We also have a page on our Fearless website for professionals working with young people to find helpful information.
