

Swindon LSCB Annual Conference

A Multi-Agency Conference on Early Help

Early help means providing support as soon as a problem emerges, at any point in a child's life. Research shows that providing early help is more effective in promoting the welfare of children than reacting later.

The 2018 Annual Conference will focus on why early help is important, what good early intervention looks like and its impact on children and their families.

- Why is early help important?
- What does good family based early help look like?
- What is the impact of early help and intervention?
- How does Swindon's early help model support practitioners in their work with children and families?
- A chance to network with multi-agency colleagues

07th November
2018
